

INSTRUCTION MANUAL

Orion® Variable 12-17mm Spacer T-ring

#5326

The Variable 12-17mm Spacer T-Ring is designed for a multitude of applications. If you need to add spacing, this is the right adapter to use, as it adds spacing from 12mm up to 17mm. This spacer can be used to reach the required critical spacing in some imaging applications but also for visual use.

It as T-threads female on one side and T-threads male on the other side, allows connecting two different accessories that use this type of threads. Simply thread the Variable 12-17mm Spacer T-ring in the first accessory. Adjust the spacing by unlocking the three socket screws with the supplied hex Allen wrench and rotating gently.

When the required distance is reached re-tighten the three socket screws. Please apply just a slight pressure to avoid damaging the T-threads inside.

WARNING: *Never look directly at the Sun with the naked eye or with a telescope – unless you have a proper solar filter installed over the front of the telescope! Otherwise, permanent, irreversible eye damage may result.*

One-Year Limited Warranty

This Orion product is warranted against defects in materials or workmanship for a period of one year from the date of purchase. This warranty is for the benefit of the original retail purchaser only. During this warranty period Orion Telescopes & Binoculars will repair or replace, at Orion's option, any warranted instrument that proves to be defective, provided it is returned postage paid. Proof of purchase (such as a copy of the original receipt) is required. This warranty is only valid in the country of purchase.

This warranty does not apply if, in Orion's judgment, the instrument has been abused, mishandled, or modified, nor does it apply to normal wear and tear. This warranty gives you specific legal rights. It is not intended to remove or restrict your other legal rights under applicable local consumer law; your state or national statutory consumer rights governing the sale of consumer goods remain fully applicable.

For further warranty information, please visit www.OrionTelescopes.com/warranty.
